WORK EXPERIENCE

DevOps Engineer

CARFAX Europe GmbH

05/2023 - Present

Munich, Germany

Managed and optimized cloud infrastructure, streamlining deployment processes, and monitoring system health. Actively involved in automating infrastructure provisioning, employing modern container orchestration techniques, enhancing version control practices, and implementing robust monitoring solutions to ensure the seamless operation of the systems. In addition to supporting the development team ensuring smooth deployment processes.

DevOps Engineer

Greple GmbH

03/2022 - 05/2023

Fuerth, Germany

Managed 14-nodes k8s cluster installed on Hetzner via Rancher. Took the mission to migrate over 100 services in k8s from an environment to another. Used Longhorn as distributed block storage, configured monitoring and logging along with alerting. Performance testing and writing technical documentation.

DevOps Engineer | Sysadmin

ideatolife

02/2021 - 03/2022

Dubai, UAE

Deployed and managed 60+ servers on AWS, Azure, and IBM clouds for more than 20 clients on different cloud resources IaaS, PaaS, and serverless. Configured CI/CD along with databases administration and supporting a big development team, in addition to training fresh grads.

Full Stack Developer Trainee

SE Factory Bootcamp

09/2020 - 01/2021

Beirut, Lebanon

Intensive full-stack web development program covering cloud architecture, frontend and backend development, source control, and web application security over 14 weeks of lectures, workshops, and projects.

Python Developer Trainee

SE Factory Bootcamp

06/2020 - 08/2020

Beirut, Lebanon

A six-week blended learning course provides a solid understanding of the foundational concepts of Computer Science using Python (Basics, algorithms, and advanced data structures).

Systems Engineer | Oracle DBA

CCI (ICC Group)

08/2019 - 01/2020

Beirut, Lebanon

Responsible for the technical and administrative aspects of the company's Oracle (database, RAC, Hypervisor), Veritas, and VMware ESXI products along with various linux and unix distros administration. First point of call for providing technical support.
